

The Medical Industry

Cranstoun & Hussein, has over 45 years experience working with general medical practitioners and medical specialists. We can assist you with your taxation and financial reporting obligations as well as offer timely advice on investment structuring, money management and wealth maximisation.

We work closely with industry bodies and other industry specialists, including lawyers, financiers and financial planners as part of an efficient advisory network for our clients.

We can assist you with:

- Establishing, buying and selling a medical practices
- Tax effective structuring and asset protection
- Operating a Medical Practice

Establishing, Buying or Selling a Medical Practice

Cranstoun and Hussein have extensive experience in performing valuations of established businesses, as well as performing due diligence reviews for prospective purchasers. If you are establishing a practice, we can help you with structuring the purchase, taxation issues and staff training on maintaining adequate books and records.

Tax Effective Structuring and Asset Protection

Cranstoun and Hussein provide tailored advice on effective tax minimisation and asset protection techniques to suit your individual requirements and circumstances. Our Firm can also assist you with contracting, commencing a private practice and establishing service entities.

We have a specialist superannuation section that assists clients with self managed superannuation funds, retirement planning and investment structuring using superannuation.

Operating a Medical Practice

If you are already in practice, Cranstoun & Hussein can help. We have assisted many clients with financial issues arising in their practices. These include;

- Timely reporting of financial performance
- Cash flow planning for BAS and other payments
- Development of financial reporting systems and procedures
- Liaising with bookkeepers or practice managers
